WORLD HAPPENINGS
BRIEFLY TOLD

The Roosevelt economic campaign is being aided by a reduction of from 24,000 to 18,000 in the strength of the United States navy.

Approximately 50,000 more people are known to have died in southern Africa, the first counting ever accomplished by a woman alone.

More than 1,000,000 pounds were shown to better conditions on April 1, as compared with the corresponding date last year, according to a report issued by the Dominion Bureau of Statistics.

Peace gold output in British Columbia increased from \$18,711 in 1932 to \$46,400 in 1933, a gain of nearly 300 per cent. Free miners contributed to value to 10,000 man last year.

Long a source of revenue to dwellers on the outskirts of civilization, the number of houses built last year reached 560 per cent. Hereafter the bounty will be \$15 per pair compared with the 50 formerly paid.

To assist school districts, municipalities and other public bodies to improve the surroundings of schools, the province has agreed to contribute the sum of \$100,000 to the federal government to distribute cash to 3,000,000 citizens.

A rate war among trans-Alantic lines was reported in shipping circles. It is suggested that the differences between members of the shipping conference represent a gain for first class and cable class accommodations.

The office of Government House at Edmonton, official residence of the lieutenant-governor of Alberta, is being sold to the public by the province of Alberta.

The executive of the United Farmers of Alberta.

B.C. Eugenic Board Will Announce All Its Duties July 1st

British Columbia's board of eugenics, to be created under the Sterilization Act, will assume control of its duties on the 1st of July.

The board is expected to be a voluntary organization of a number of medical, judicial, a psychiatrist and a social worker, yet to be named, who will be responsible to the legislature.

The duties of the board will be to make recommendations to the lieutenant-governor on applications for sterilization of persons who are mentally deficient or have a mental deficiency or serious mental defect which may be passed on to successive generations without interference.

If the consent of the patient or a guardian is obtained, the board may order application of the statute in any case where it is deemed necessary to investigate into the case. Where consent is withheld, the operation would be performed without the patient's knowledge and the patient would be confined to the institution.

The cost would be borne by the institution and the choice of a surgeon would be accorded.

Making Sugar From Wood Suitable For All Kinds of Confectionery Is Claimed

After ten years of experimentation in his laboratory, the noted German chemist, Hermann, to whom the Nobel Prize was awarded for his process of making sugar, has perfected a process for making sugar from wood.

The process is put into effect in a factory near Hamburg, where the production of sugar is being carried on.

The process is a great help to the sugar industry, as it is a cheap and simple method of producing sugar.

The process is a great help to the sugar industry, as it is a cheap and simple method of producing sugar.

The Debt Adjustment Act, 1933

Important Legislation Passed in Saskatchewan At Recent Session

The Debt Adjustment Act, 1933, passed at the recent session of the Saskatchewan Legislature, does not differ very materially from the Act of the United States of America.

However, it is much wider. While the United States Act applied only to certain restricted classes of residents, the new Act protects every person who is an actual resident of the province, and that protection is given to every person who, though not an actual resident, is the owner of land in the province as well as a member of a family consisting of himself, his wife and children.

All companies, except banks, incorporated in Canada, and all companies, except banks, incorporated in Canada, and all companies, except banks, incorporated in Canada, are also protected.

Agreement Between Debtor and Creditors

The new Act requires the provisions of the superseded act with the requirement to enable the debtor to settle his debts. Such arrangements may be made through the medium of the Debt Adjustment Board, between a resident and his creditors, and may provide for settlement of the resident's debts either in full or by a composition.

If an adjustment cannot be arrived at between the resident and his creditors, the board is empowered to determine from time to time the basis on which the resident is to pay the claims of his creditors and on which the creditors are to receive payment of their claims; and, in case the board is unable to do so, it may direct payment by the board, the board may have a power to require the creditors to proceed against the debtor.
